CANCER PREVENTION & RESEARCH INSTITUTE OF TEXAS

A SPECIAL THANKS FOR THE DEDICATION AND HARD WORK OF CANCER REGISTRARS AND OTHERS RESPONSIBLE FOR DATA COLLECTION ACROSS TEXAS.

The Texas Department of State Health Services (DSHS) and Cancer Prevention and Research Institute of Texas (CPRIT) work collaboratively in support of the Texas Cancer Registry (TCR) and the fight against cancer.

Recognition of Funding Sources

Maintaining a statewide cancer registry that meets both National Program of Cancer Registries and Centers for Disease Control and Prevention (CDC) high quality data standards and North American Association of Central Cancer Registries (NAACCR) gold certification is accomplished through collaborative funding efforts.

In 2005, the Texas Legislature provided additional funding for the Texas Cancer Registry to achieve and maintain national high quality data standards and certification. With this new funding, the TCR attained both CDC high quality data standards and gold certification from NAACCR for the first time in 2005. These standards have been maintained through funding from the Texas Department of State Health Services, the Higher Education Coordinating Board, and now through the Cancer Prevention and Research Institute of Texas.

The TCR also acknowledges the CDC for its financial support under Cooperative Agreement 1U58DP003902–01. The contents of this report are solely the responsibility of the authors and do not necessarily represent the official views of the CDC.
