

## HHS HPP Cooperative Agreement FY08 Progress Report

### Preparedness Element: Communications

#### Report the number of participating hospitals that demonstrate dedicated, redundant

Report the number of participating hospitals that indicate they have dedicated redundant communications capability (Number)	468
Report the number of participating hospitals that demonstrated dedicated, redundant communications capability, during an exercise or incident using the following communications capabilities (Number)	510
UHF Radio (Number)	148
VHF Radio (Number)	173
700 MHz Radio (Number)	39
800 MHz Radio (Number)	260
POTS Telephone (Number)	448
Cellular Telephone (Number)	472
LAN (Number)	242
WAN (Number)	95
VoIP (Number)	47
Microwave (Number)	102
Other type of communication equipment	172

Are demonstrations of dedicated, redundant communications capabilities during an exercise or incident reflected in exercise evaluations and/or after action reports? (Y/N)

Yes

#### Report the number of participating hospitals that demonstrate sustained two-way

#### Report the number of participating hospitals that indicate they have two-way communications

Report the number of participating hospitals that demonstrated sustained two-way communications capabilities, during an exercise or incident using the following communications capabilities (Number)	540
UHF Radio (Number)	170
VHF Radio (Number)	173
700 MHz Radio (Number)	37
800 MHz Radio (Number)	244
POTS Telephone (Number)	440
Cellular Telephone (Number)	455
LAN (Number)	240
WAN (Number)	100
VoIP (Number)	33
Microwave (Number)	72
Other type of communication equipment	152

List at least two Tier 2 partners with which the State was able to sustain two way communications	Houston Catastrophic Medical Operations Center (CMOC)
	San Antonio Regional Medical Operation Center (RMOC)
Report the number of participating hospitals that tested sustained-two way communications	
Time Parameters	Number of Participating Hospitals
0-59 Minutes	453
1-2 hours	132
>2 hours	149
Are demonstrations of sustained two-way communications with local EOC or tier 2 partners during an exercise or incident reflected in exercise evaluations and/or after action reports? (Y/N)	Yes
