Newborn Screening Submitters,

REMINDER: The Newborn Screening Voice Response System (VRS) will be permanently shut down as of **September 1, 2012**. August 31, 2012, is the last day that healthcare providers can access Newborn Screening Results through the Voice Response System.

Please note—healthcare providers can still access Newborn Screening result reports 24-hours a day by using the Texas Newborn Screening Web Application.

To sign up for access to the web application, complete and submit the required forms found here:
