PediaSure® Vanilla RTU 8oz. Available in Single Unit Container

The Texas WIC Program has been informed some vendors only carry 8 ounce PediaSure® in six packs. Please be advised PediaSure® Vanilla is also available in individual containers. The UPC codes for ordering cases and individual bottles are as follows:

16 Count Case: 0-70074-62082-4
Individual bottle: 0-70074-62495-2

Stores are not required to carry PediaSure® in six packs or single unit containers. However, if you have WIC customers prescribed this product, it will normally be for 113 bottles. The child's Mother is unable to redeem the full prescription through six packs alone. Vendors who augment their six pack inventories with an order of the PediaSure® Vanilla in individual containers are able to redeem the full amount prescribed for the WIC participant.

If you have any questions, please call the WIC State Office at 1-800-252-9629, extension 4425, to speak with a member of the Vendor Training Team.
