¹ DSHS Center for Health Statistics projected 2017 Texas population data (/CHS/Popdat/Dtl/Dtl2017p.xls - link currently inactive) accessed 1/3/2017.

² Infant botulism and congenital rubella syndrome rates are calculated using the Texas populations under 1 year of age.

³ Perinatal hepatitis B cases are defined as infants >1 month of age through 24 months of age who were born in the US to HBsAg positive mothers. The rates were calculated using the population under 2 years of age, which approximates this cohort.

⁴ Influenza-associated pediatric mortality cases are calculated using the population under 18 years of age.
