2015 Texas Governmental Public Health Nurse Staffing Study (TGPHNSS) SURVEY FORM

Purpose: The primary purpose of this study is to assess the size and effects of the nursing workforce in Texas governmental public health agencies. State hospitals are not included in this study. The aggregated results of this survey will be available to you following the completion of the data collection and analysis. The aggregated survey results will serve as a guide in developing policy recommendations by the Texas Center for Nursing Workforce Studies Advisory Committee. The data you provide will also be instrumental in developing projections for the number of public health nurses needed in Texas. Your participation in this study is voluntary but highly encouraged, since a better response rate for this survey will provide for more credible information that could affect future public health legislation.

Complete the survey online at:

<https://www.dshs.state.tx.us/chs/cnws/2015 TGPHNSS>

Due Date: Your completed survey is due by **Friday, July 10, 2015**.

Confidentiality Statement: Your responses are completely confidential. We will report aggregate (statewide and regional) findings only.

See the survey instructions for information on completing and submitting the online survey. You can download a copy of the instructions and other survey materials at <http://www.dshs.state.tx.us/chs/cnws/TGPHNSS/>.

If you have questions at any time about the survey or procedures, you may contact Timothy Hawkins at 512-776-6561 or by email at TCNWS@dshs.state.tx.us. Thank you very much for your time and effort.

All survey responses are STRICTLY CONFIDENTIAL.

**Texas Governmental Public Health Nurse Staffing Survey
(TGPHNSS)
Operational Definitions**

2015 Texas Governmental Public Health Nurse Staffing Study

OPERATIONAL DEFINITIONS

Administrator - The person who is responsible for the day-to-day operations of the local health department.

Advanced Practice Registered Nurse (APRN) – a registered nurse approved by the Texas Board of Nursing (BON) to practice as an advanced practice nurse based on completing an advanced educational program acceptable to the BON. The term includes a nurse practitioner, nurse-midwife, nurse anesthetist, and a clinical nurse specialist. The advanced practice nurse is prepared to practice in an expanded role to provide health care to individuals, families, and/or groups in a variety of settings including but not limited to homes, hospitals, institutions, offices, industry, schools, community agencies, public and private clinics, and private practice. The advanced practice nurse acts independently and/or in collaboration with other health care professionals in the delivery of health care services (Texas BON).

Full-Time – an employee who works a full work week and full work year, as defined by the employer.

Full-Time Equivalent (FTEs) - the equivalent of one (1) full-time employee working for one year or a staff position budgeted for 2,080 hours per year. This is generally calculated as 40 hours per week for 52 weeks (or other variations such as 80 hours in a 14 day time frame), for a total of 2,080 paid hours per year. This includes both productive and non-productive (vacation, sick, holiday, education, etc.) time. Two employees each working 20 hours per week for one year would be the same as one FTE.

Health Services Regions - eight regions designated by DSHS in Texas that provide preventive, protective, regulatory, and preparedness health services in areas without local health departments. Additionally, each region carries out required state governmental functions and assists local health departments (Texas DSHS).

Licensed Vocational Nurse (LVN) - an individual who holds a current license to practice as a practical or vocational nurse in Texas or a compact state (Texas BON).

Local Health Department (LHD) – a governmental body serving a jurisdiction or group of jurisdictions geographically smaller than a health region or state and recognized as having the primary statutory authority to promote and protect the public's health and prevent disease in humans. This authority is defined by the state's constitution, statute, or regulations or established by local ordinance or through formal local cooperative agreement or mutual aid. (Public Health Accreditation Board. *Guide to National Public Health Department Accreditation*. Alexandria, VA. May 2011).

Nurse Informaticist – a registered nurse whose main job function is to process and manage data and information to support nursing practice, administration, education, research, and the expansion of nursing knowledge.

Part-Time – an employee who works less than full-time, as defined by the employer.

Per Diem – an arrangement wherein a nurse is employed directly on an as needed basis and usually has no benefits.

Public Health Nursing (PHN) – the practice of promoting and protecting the health of populations using knowledge from nursing, social, and public health science (American Public Health Association, Public Health Nursing Section, 1996).

All survey responses are STRICTLY CONFIDENTIAL.

Page | 1

Separations - the number of people (head count) who left your organization in the specified time frame. Include voluntary and involuntary terminations or separations. Do NOT count contract/temporary labor, students in training, travelers or separations due to illness or death in the termination or separation numbers. Do not include within-organization transfers.

Program Areas

Access to Care/Health Systems – promotes strategies to improve access to healthcare services. The ability to obtain wanted or needed services may be influenced by many factors, including travel, distance, waiting time, available financial resources, and availability of a regular source of care. Access to care also refers to the extent to which a public health service is readily available to the community’s individuals in need. (Turnock, BJ. *Public Health: What It Is and How It Works*. Jones and Bartlett. 2009).

Ambulatory Services (Primary Care) - focuses on cost-effective ways to maximize wellness, prevent illness, and manages acute and chronic diseases to affect the most attainable positive health status over the patient's life span up to and including a peaceful death. (Laughlin, C.B. (Ed.) (2006). *AAACN Core Curriculum for Ambulatory Care Nursing*, p. 4. Pitman, NJ: American Academy of Ambulatory Care Nursing).

Case Management/Care Coordination (including home visits) – maintains primary accountability for a patient case load in order to ensure organization of the costs, use, and quality of the health care system (ICONS).

Chronic Disease Services/Prevention - provides information, education, resources, and assistance to the individual and community to ensure healthy life choices, reduce the human and economic impact of chronic poor health, reduce the incidence of premature death and disability, and promote healthy communities (Texas DSHS).

Correctional Health - provides nursing practice in prisons, jails, juvenile detention centers, and other restrictive settings.

Emergency Preparedness - plans for and responds to disasters and assist communities in recovery. Also provides emergency response preparation education (ACHNE. (2008). *Disaster Preparedness White Paper*. p.3).

Environmental Health - develops environmental health educational tools and resources, including online webcasts, environmental health curricula, pocket guides, and websites, and implements environmental health training programs (The Agency for Toxic Substances and Disease Registry, CDC).

Epidemiology - studies the distribution and determinants of health-related states or events in specified populations, and applies

Family Planning Services (Clinical) - provides comprehensive, low-cost, and easily accessible reproductive health care to women and men. Services may include physical exams, birth control method counseling, natural family planning, emergency contraception provision, lab tests and medications for sexually transmitted diseases, pregnancy testing, pre-conception counseling, and infertility counseling, delivered in a family planning setting (Texas DSHS).

General Administration - executes administrative tasks such as policy making, scheduling, planning, and budgeting. Administration may also include staff management, hiring, and training.

Human Immunodeficiency Virus - provides education, prevention counseling, screening and testing, partner elicitation and notification, and the provision of medical and social services to prevent the spread of HIV (Texas DSHS).

Home Health Care - provides skilled nursing services in the patient's home. Examples of skilled nursing care include: giving IV drugs, injections, or tube feedings; changing dressings; and teaching about prescription drugs or diabetes care (US Dept. of Health & Human Services, Centers for Medicaid & Medicare Services, *Medicare and Home Health Care*, p.8).

Immunization Programs/Services - provides immunizations to children and adults of all ages in order to prevent vaccine preventable diseases within the community. Oversees the proper storage, handling, and administration of vaccines (Texas DSHS).

Inspections (Daycares, Nursing homes, etc.) - conducts onsite inspections to determine whether nursing homes, daycares, etc. meet the minimum funding and/or regulatory quality and performance standards (Department of Aging and Disability Services).

Maternal/Child Health Programs - conducts programming focused on improving the physical and mental health, safety, and well-being of women, infants, children, and adolescents (other than Women, Infant, and Children Supplemental Nutrition Program (WIC)) (HRSA, *Maternal and Child Health*, 2013).

Men's Health - conducts programming focused on identifying, preventing, and treating conditions that are most common or specific to men (Men's Health Network).

Refugee Health - provides refugee clients with culturally and linguistically appropriate comprehensive health assessments, including follow-up and referrals for health conditions identified in the assessment process (CDC, 2011).

School Health - oversees school health policies and programs, provides expertise and oversight for the provision of school health services and promotion of health education, provides health care to students and/or staff, performs health screenings and coordinates referrals to the medical and dental home or private healthcare provider (National Association of School Nurses, 2011).

Sexually Transmitted Disease - provides education, prevention counseling, screening and testing, partner elicitation and notification, and the provision of medical and social services to prevent the spread of STDs other than HIV (Texas DSHS)

Substance Abuse/Tobacco Prevention - provides health education and/or cessation services to prevent tobacco and substance use (Texas DSHS).

Tuberculosis Control - provides a range of services to control, prevent, and eliminate tuberculosis (Texas DSHS).

Women, Infant, Children Supplemental Nutrition Program (WIC) - provides nutrition education and counseling, nutritious foods, and help accessing health care to eligible women, infants, and children (Texas DSHS).

Texas County and TGP HNS Designations

Texas County Designation – Metropolitan

This study designates each of the 254 Texas counties as “Metropolitan” or “Non-metropolitan.”

Metropolitan statistical areas are defined by the United States Office of Management and Budget (OMB) according to published standards applied to 2000 Census Bureau data. Conceptually, a metropolitan statistical area is a core area containing a substantial population nucleus, together with adjacent communities having a high degree of economic and social integration with that core.

Each metropolitan statistical area must have at least one urbanized area of 50,000 or more inhabitants.

The Metropolitan and Non-metropolitan Statistical Area Standards do not equate to an urban-rural classification; all counties included in Metropolitan and Non-metropolitan Statistical Areas and many other counties contain both urban and rural territory and populations.

Texas has 77 Metropolitan and 177 Non-Metropolitan counties based on this designation.

Texas County Designation – Border

This study uses the Border/Non-border designation for Texas counties defined by the “La Paz Agreement,” which states that the border region is 100 kilometers north and south of the U.S. – Mexico border.

This border designation includes 32 Texas counties:

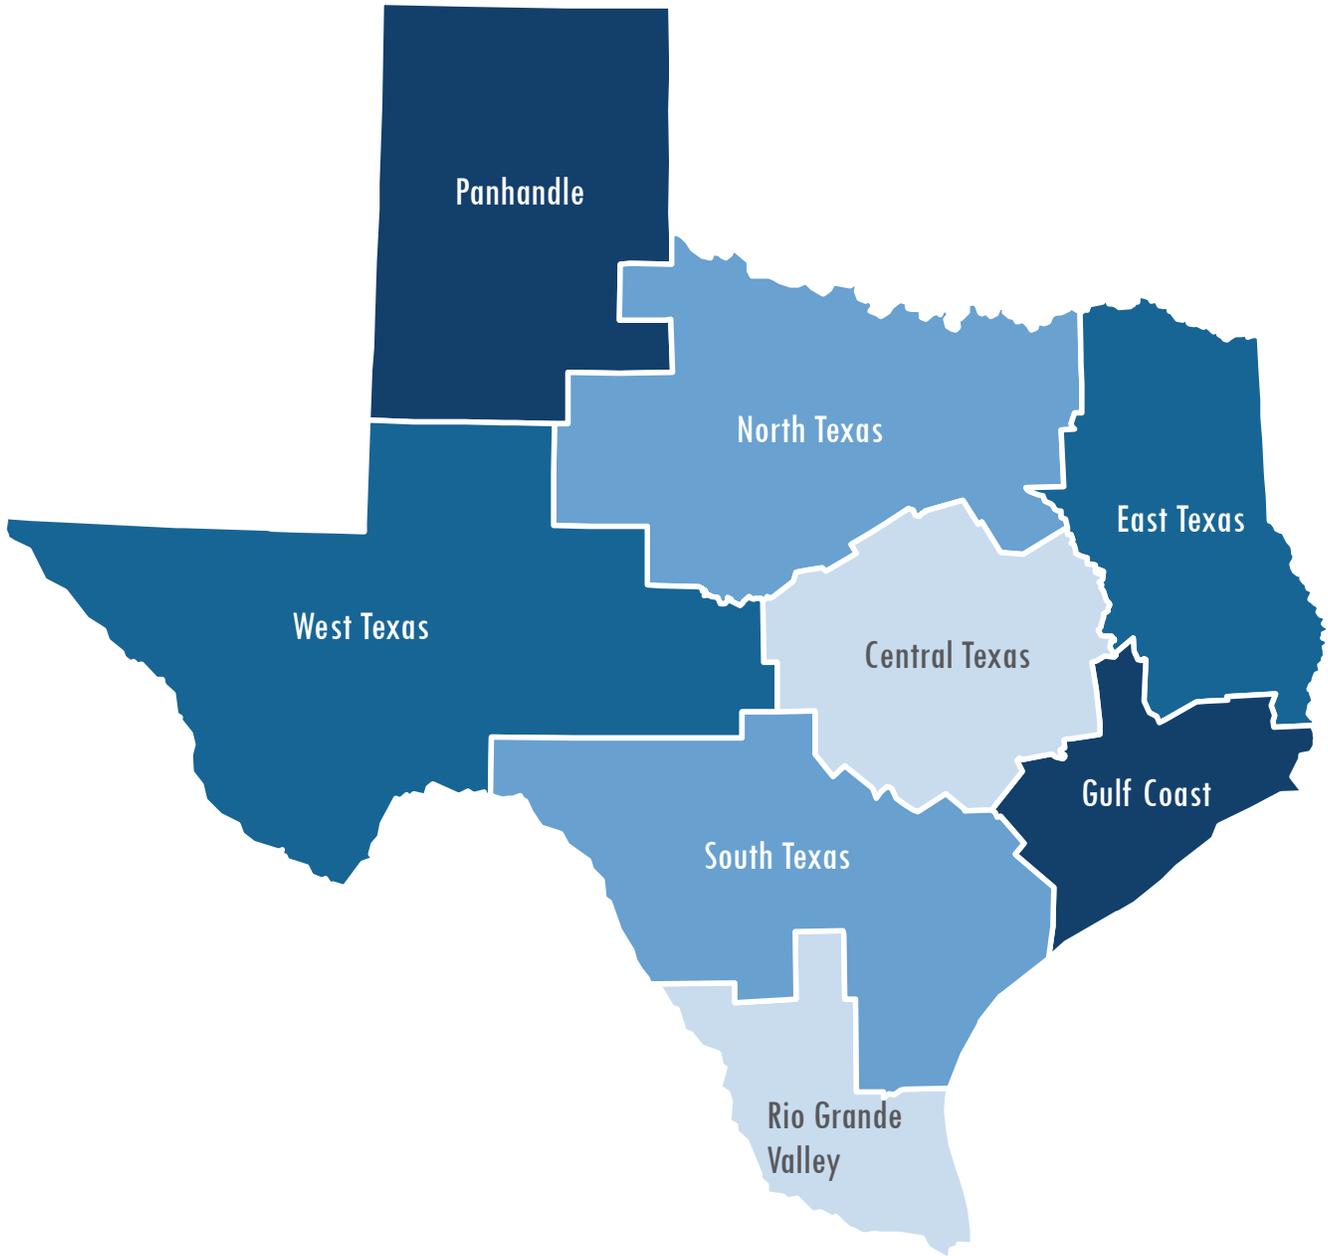

Brewster, Brooks, Cameron, Crockett, Culberson, Dimmit, Duval, Edwards, El Paso, Frio, Hidalgo, Hudspeth, Jeff Davis, Jim Hogg, Kenedy, Kinney, La Salle, Maverick, McMullen, Pecos, Presidio, Real, Reeves, Starr, Sutton, Terrell, Uvalde, Val Verde, Webb, Willacy, Zapata, and Zavala.

The remaining 222 counties are Non-Border.

Four of the 32 border counties are designated as Metropolitan.
