*** The list is also available on DSHS web site: www.dshs.state.tx.us/chs/hosp/.

I. Charity Care Policy:

1. Include your hospital's Charity Care Mission statement in the space below.

As part of the Memorial Hermann Healthcare System's mission to serve the healthcare needs of the community, Memorial Hermann will provide charity care to patients without financial means to pay for hospital services in keeping with the guidelines established in this policy as presently constituted or as amended from time to time. Care will be provided to all patients who present themselves for care at Memorial Hermann without regard to race, creed, color, or national origin. Those patients who are financially indigent or medically indigent will receive such care on a non-discriminatory objective basis and consistently with the continuing need for good stewardship of limited medical and financial resources.

2. Provide the following information regarding your hospital's current charity care policy.

a. Provide definition of the term **charity care** for your hospital.

Program/Patient Population: The categories of patients who qualify for charity care are defined as: - Financial Indigents - Medical Indigents - Governmental Sponsored Indigents/Patient Portion - Presumed Indigents. The Memorial Hermann charity program is designed to provide hospital services to patients who do not have alternative health care resources. If however, an indigent patient presents to a Memorial Hermann hospital for medical treatment and the patient is eligible for like treatment at an alternative governmental healthcare facility, the patient's medical needs should be met through the alternative facility. Exceptions to this policy would include situations where the patient's condition is considered an emergency medical condition or the treatment requires unique skills that can only be performed by a physician on the Memorial Hermann medical staff. In these instances, Memorial Hermann will provide all medical treatment ordered by the responsible medical practitioner(s) regardless of the patient's alternative health care resources. Once the patient is stabilized or the specialized medical need is provided, the responsible practitioner (e.g., physician) shall refer the patient into the alternative governmental healthcare facility for follow up and continued health care needs. Elective patients will generally not qualify, however exceptions may be made on an individual basis consistent with the principles set out in this Charity Care Policy. Charity determination is conditional and does not apply to Third Party claims such as lawsuits, settlements, hospital liens or any other third party payment or liability. Memorial Hermann retains its rights to recover the full balance from any third party resource to the fullest extent allowed by law.
