Located in the heart of the Dallas/Fort Worth Metroplex and licensed for 293 beds, Baylor Medical Center at Irving (Organization), an affiliate of Baylor Health Care System (BHCS), is a not-for-profit full-service, fully-accredited acute care medical center. The Organization offers advanced health care services in cardiovascular care, diagnostic imaging, digestive disorders, physical medicine and rehabilitation, oncology care, orthopedic surgery, and emergency medicine. The Organization is centrally located on State Highway 183 between Dallas to the east and Fort Worth to the west. Community outreach and preventative health care are two areas of focus that fuel the Organization’s efforts to screen and educate local residents to improve the overall health and wellness of the communities it serves. Prevention leads to early detection and the ability to catch disease when treatment will be most reliable and effective. This overarching approach shapes the Hospital’s outreach plan and operational strategy.

Irving’s only charity medical clinic, the Irving Interfaith Clinic (IIC) opened its doors January 1, 2006 to care for residents who have no health insurance and do not qualify for tax-subsidized care at the Dallas County public hospital. Since that date, more than 17,000 visits have been made by more than 2,000 people on the patient registry. They receive care from 20 physicians who generously volunteer services after their own practices close. The Organization provided recruitment assistance to physicians and other allied health professionals in order to relocate their practice into the community to satisfy a documented shortage of physicians in the TSA and other medically underserved areas. For the fiscal year ended June 30, 2013, the Organization provided $40,447 toward this effort. The Organization is also committed to assisting with the preparation of future nurses at entry and advanced levels of the profession to establish a workforce of qualified nurses. Through the System’s relationships with fifteen North Texas schools of nursing, the Hospital maintains strong affiliations with schools of nursing. In the fiscal year ending June 30, 2013, the Hospital invested in training 181 nurses. Total unreimbursed cost of these programs was more than $420,641. Like physicians, nursing graduates trained at a System entity are not obligated to join the staff although many remain in the North Texas area to provide top quality nursing services to many health care institutions.

Additional Information:
Use this space if more space is required for comments or to elaborate on any of the information supplied on this form. Please refer to the response by question and item number.

2f. If the patient is an adult, the term Yearly Income for purposes of classification as either Financially Indigent or Medically Indigent means the sum of the total yearly gross income of the patient and the patient's spouse. If the patient is a minor, the term Yearly Income means the sum of the total yearly gross income of the patient, the patient's mother and the patient's father. 2g. Support from an absent family member or someone not living in the household is only included if the patient is a dependent of the absent family member or someone not living in the household. 4b. Hospital may review credit reports and other publicly available information to determine, consistent with applicable legal requirements, estimated household size and income amounts for the basis of determining financial assistance eligibility when a patient does not provide a Financial Assistance Application or supporting documentation.
