Provide information on name, brief description (3 lines), target population or purpose (3 lines) for each of the community benefits projects/activities CURRENTLY being undertaken by your hospital (example: diabetes awareness).

The mobile clinic is in response to the identified needs in the area, especially teen pregnancy and lack of access to prenatal care. The mobile clinic's primary service is to provide prenatal care in outlying areas for uninsured patients who would have difficulty in receiving care. The clinic offers consistent care and helps to transition the patients to a physician for continued care. There are also Health Fairs that offer free screening. Special attention is given to diseases with high incidence in the service area including diabetes, cancer and heart disease. These services are offered to provide education on prevention and also early detection. They are geared to providing access to service to high risk and/or special needs patients.

Additional Information:

Use this space if more space is required for comments or to elaborate on any of the information supplied on this form. Please refer to the response by question and item number.
