Based on 2015 Federal Poverty Guideline (FPG)

Effective March 3, 2015

○ **Family Composition Section** – Enter the total number of family members in each category listed. Total should include a person living alone or two or more persons living together where legal responsibility for support exists, excluding disqualified persons. Legal responsibility for support exists between: Persons who are legally married (including common-law marriage), a legal parent and a minor child (including unborn children), or a managing conservator and a minor child.

Program counts the unborn child(ren) in the family size if the pregnant woman receives or is potentially eligible to receive benefits under the program.

○ **Income Section** – W/Job figure amounts are based on one person working and no dependent care or adult with disabilities care expense deductions. If two people are working, add an additional \$120. Income may be either earned or unearned. If actual or projected income is not received monthly, convert it to a monthly amount using one of the following methods:

- Weekly income x 4.33
- Every two weeks x 2.17
- Twice a month x 2.0

Dependent childcare expenses, adult with disabilities care expenses and child support payments being made shall be deducted from total income in determining eligibility. Allowable dependent childcare deductions are actual expenses up to \$200 per child per month for children under age 2 and \$175 per child per month for children age 2 or older. And \$175 per month for each adult with disabilities.
