Veklury (remdesivir) Available for Order from Distributor

February 2, 2022

Dear Therapeutics provider,

Gilead, the manufacturer of Veklury, has opened up the types of outpatient facilities that may order Veklury. Veklury is not under allocation by US HHS or Texas DSHS. Facilities may purchase it directly from the distributor. A full course of Veklury is administered over three consecutive days. Please refer all questions about ordering to the distributor.

The following is provided for your information:
