

# **Comparative Analysis of proposed Texas Alternate Survey to 2007 CAMTS Standards**

**(January 30, 2008)**

**By: Shawn Salter, Air Medical ASP Work Group**

The following reference numbers and “brief” descriptors details areas noted in the 2007 CAMTS Standards which are NOT currently noted in the proposed Texas Alternative Survey Process:

- 01.05.00 Base Facility Requirements (Environment, storage, lighting, etc.)
- 01.07.00 Required Community Education by \*Air Medical Service (AMS)
  - 01.07.01 Requires that Part 135 Certificate Holder be identified on all advertisement or educational products.
  - 01.07.07 Required Landing Zone classes by provider
- 01.08.02 Prohibits “freelance” response by provider
- 01.09.03 Required passenger manifest for non crewmember passengers
- 01.10.01 Ethical business practice requirements (i.e. brokering, sub-contracting flights)
  - 01.10.02 Insurance requirements (Hull, Work Comp, Liability)
- 01.12.00 Reporting suggestions to Concern Network
- 01.13.00 Corporate Compliance (i.e. Stark Laws, HIPAA, EMTALA)
- 02.04.00 Staffing practices (i.e. 24 hour shifts etc.)
  - 02.05.02 Staffing of Critical Care Transports
  - 02.05.05 Education Requirements for Specialty Team Transport personnel
- 03.01.00 Aircraft Medical Interior Requirements (i.e. access to airway or for childbirth)
  - 03.01.04 Two patient capable aircraft - access requirements
- 03.03.01 Oxygen access, monitoring and quantity requirements
  - 03.03.06 Base storage of oxygen in line with OSHA requirements

03.04.04 Glass containers on aircraft

03.06.01 Securing and observation requirements for patient monitors

03.06.04 Transvenous pacemaker requirements

03.06.05 Mechanical Ventilator requirements

03.06.08 End Tidal CO2 Monitoring requirements

03.06.09 Nitrous Oxide Policy Requirements

03.06.12 Securing patients during transport  
c. Securing Pediatric Patients  
d. Isolette Securing Practices  
    8. Head Strike Envelope  
    c. Helmets for RW ops

04.01.06 Hot Refueling Operations

04.01.09 Hazardous Material Response

05.07.00 Environmental Control

06.06.05 Evacuation plan for Communication Center

06.06.06 Back-up utility requirements for Communication Center

07.01.01 SAFETY MANAGEMENT SYSTEMS (and all that they entail)

07.03.01 Utilization Review

09.01.02 Infection Control and Exposure Plan

13.03.0 Maintenance facilities for RW aircraft

14.01.00 Helipad requirements for providers owning or operating helipads

14.01.09 Helipad Security requirements

14.02.00 Surveying requirements of Occasional Use Helipads / Helistops

25.00.00 Maintenance facilities for FW aircraft

28.00.00 Ground Inter-facility Standards
