§157.130 Emergency Medical Services and Trauma Care System Account and Emergency Medical Services, Trauma Facilities, and Trauma Care System Fund

(a) Definitions. The following words and terms, when used in this section, shall have the following meanings, unless the context clearly indicates otherwise.

(1) Extraordinary emergency--An event or situation which may disrupt the services of an EMS/trauma system.

(2) Rural county--A county with a population of less than 50,000 based on the latest official federal census population figures.

(3) Urban county--A county with a population of 50,000 or more based on the latest official federal census population figures.

(4) Emergency transfer— is defined as any medically-ordered, immediate transfer of an emergent or unstable patient from a health care facility to a health care facility which has the capability of providing a higher level of care or of providing a specialized type of care not available at the transferring facility.

(5) Trauma care – is care provided to patients who underwent treatment specified in at least one of the following ICD-9 codes: between 800.00 and 959.9, including 940.0-949.0 (burns), excluding 905.0-909.0 (late effects of injuries), 910.0-924.0 (blisters, contusions, abrasions, and insect bites), 930.0 – 939.0 (foreign bodies), and who underwent an operative intervention or was admitted as an inpatient for >23 hours or who died after receiving any emergency department evaluation or treatment or was dead on arrival or who transferred into or out of the hospital.

(6) Uncompensated trauma care-- is defined as the sum of “charity care” and “bad debt” resulting from trauma care charges as defined in (a)(5) of this section after due diligence to collect. Contractual adjustments in reimbursement for trauma services based upon an agreement with a payor (to include but not limited to Medicaid, Medicare, Children’s Health Insurance Program (CHIP), etc.) is not uncompensated trauma care.

(7) Charity care-- is the unreimbursed cost to a hospital of providing, funding, or otherwise financially supporting health care services on an inpatient or emergency department basis to a person classified by the hospital as “financially indigent” or “medically indigent”.

(A) Financially indigent-- is defined as an uninsured or underinsured person who is accepted for care with no obligation or a discounted obligation to pay for the services rendered based on the hospital’s eligibility system.

(B) Medically indigent-- is defined as a person whose medical or hospital bills after payment by third-party payors (to include but not limited to Medicaid, Medicare,
CHIP, etc.) exceed a specified percentage of the patient’s annual gross income, determined in accordance with the hospital’s eligibility system, and the person is financially unable to pay the remaining bill.

(8) Bad debt-- is the uncollectible trauma care charges, as defined in (a) (5) of this section, that result from the extension of credit based upon the hospital’s bad debt policy. A hospital’s bad debt policy should be in accordance with generally accepted accounting principles.

(9) Operative intervention –Any surgical procedure resulting from a patient being taken directly from the emergency department to an operating suite regardless of whether the patient was admitted to the hospital or discharged from the hospital.

(b) Reserve. On September 1 of each year, there shall be a reserve of $500,000 in the emergency medical services (EMS) and trauma care system account and the emergency medical services, trauma facilities, and trauma care system fund (accounts) for extraordinary emergencies. During the fiscal year, distributions may be made from the reserve by the commissioner of health based on requests which demonstrate need and impact on the EMS and trauma care system (system).

(1) Proposals not immediately recommended for funding will be reconsidered at the end of each fiscal year, if funding is available, and need are still present.

(c) Allotments. The EMS allotment shall be 50%, the trauma service area (TSA) allotment shall be not more than 20%, and the uncompensated care allotment shall be at least 27% of the funds remaining from the accounts after any amount necessary to maintain the extraordinary emergency reserve of $500,000 has been deducted.

(1) Each year, the bureau of emergency management (department) shall determine:

(A) eligibility of all EMS providers, regional advisory councils (RACs), and trauma facilities;

(B) the amount of the TSA allotment, the EMS allotment, and the uncompensated care allotment;

(C) each county's share of the EMS allotment;

(D) each RAC’s share of the TSA allotment; and

(E) each designated trauma facility’s share of the uncompensated care allotment.
§157.130 Emergency Medical Services and Trauma Care System Account and Emergency Medical Services, Trauma Facilities, and Trauma Care System Fund
Governor’s EMS and Trauma Advisory Council Draft
1/29/2004

(2) The department shall contract with each eligible RAC to distribute the county shares of the EMS allotment to eligible EMS providers based within counties which are aligned within the relevant RAC. Prior to distribution of the county shares to eligible providers, the RAC shall submit a distribution proposal, approved by the RAC’s voting membership, to the department for approval.

(A) The county portion of the EMS allotment shall be distributed directly to eligible recipients without any reduction in the total amount allocated by the department and shall be used as an addition to current county EMS funding of eligible recipients, not as a replacement.

(B) The department shall evaluate each RAC’s distribution plan based on the following:

   (i) fair distribution process to all eligible providers, taking into account all eligible providers participating in contiguous TSAs;

   (ii) needs of the EMS providers;

   (iii) evidence of consensus opinion for eligible entities.

(C) A RAC opting to use a distribution plan from the previous fiscal year shall submit, to the department, a letter or email of intent to do so.

(D) Eligible EMS providers may opt to pool funds or contribute funds for a specified RAC purpose.

(3) The department shall contract with each eligible RAC to distribute the TSA allotment. Prior to distribution of the TSA allotment, the RAC shall submit a budget proposal to the department for approval. The department shall evaluate each RAC’s budget according to the following:

(A) budget reflects all funds received by the RAC, including funds not expended in the previous fiscal year;

(B) budget contains no ineligible expenses;

(C) appropriate mechanism is used by RAC for budgetary planning; and

(D) program areas receiving funding are identified by budget categories.

(4) The department shall contract with each eligible RAC to distribute shares of the uncompensated care allotment to eligible designated trauma facilities. Prior to distribution of
§157.130 Emergency Medical Services and Trauma Care System Account and Emergency Medical Services, Trauma Facilities, and Trauma Care System Fund Governor’s EMS and Trauma Advisory Council Draft 1/29/2004

the uncompensated care allotment, the RAC shall submit a distribution proposal, approved by the RAC’s voting membership, to the department for approval.

(A) the department shall evaluate each RAC’s distribution plan based on the following:

(i) fair distribution process to all eligible providers;

(ii) needs of designated trauma facilities; and

(iii) evidence of consensus opinion from eligible entities.

(B) a RAC opting to use a distribution plan from the previous fiscal year shall submit, to the department, a letter or email of intent to do so.

(C) eligible designated hospitals may opt to pool funds or contribute funds for a specified RAC purpose for novel or innovative projects.

(d) Eligibility requirements. To be eligible for funding from the accounts, all potential recipients (EMS Providers, RACs, Registered First Responder Organizations and hospitals) must maintain active involvement in regional system development. Potential recipients must also meet requirements for reports of expenditures from the previous year and planning for use of the funding in the upcoming year.

(1) To be eligible to receive extraordinary emergency funding, an entity must:

(A) be a licensed EMS provider, a licensed general hospital, or a registered first responder organization;

(B) submit a written request, containing the entity name, contact information, amount of funding requested, and a description of the extraordinary emergency to the Chief of the department; and

(C) return a signed extraordinary emergency information checklist to the department.

(2) To be eligible for funding from the EMS allotment, an EMS provider must:

(A) Maintain provider licensure as described in §157.11 of this title and provide emergency medical services and/or emergency transfers;

(B) demonstrate utilization of the RAC regional protocols regarding patient destination and transport in all TSAs in which they operate (verified by each RAC); and
(C) demonstrate active participation in the regional system performance improvement (PI) program in all TSAs in which they operate (verified by each RAC).

(D) an EMS provider licensed in or contracted to provide emergency medical services in a county that is contiguous with a neighboring TSA may participate on either RAC.

(i) participation on both RACs is encouraged;

(ii) RAC participation shall follow actual patient referral patterns;

(iii) an EMS provider contracted to provide emergency medical services within a county of any one TSA with a provider license that reflects another county not in or contiguous with that TSA must be an active member of the RAC for the TSA of their contracted service area and meet that RAC’s definition of participation and requirements listed in sub-section (d)(2)(E)(i)-(vi) of this section; and

(iv) it is the responsibility of the licensed and/or contracted EMS provider to contact each RAC in which it operates to ensure knowledge of the provider’s presence and potential eligibility for funding from the EMS allotment in the respective TSA.

(E) providers serving any county beyond county of licensure must provide evidence of contract or letter of agreement with each additional county government or taxing authority in which service is provided.

(i) inter-facility transfer letters of agreement and/or contracts, as well as mutual aid letters of agreement and/or contracts, do not meet this requirement.

(ii) contracts or letters of agreement must be dated and submitted to the department on or before August 31 of the respective year, and be effective more than six months of the upcoming year.

(iii) effective dates of the contract or letter of agreement should be provided.

(iv) EMS providers with contracts or letters of agreement on file with the department which include contract service dates that meet the required time period need not resubmit.

(v) EMS providers are responsible for assuring that all necessary portions of their contracts and letters of agreement have been received by the department.
(vi) air ambulance providers must meet the same requirements as ground transport EMS providers to be eligible to receive funds from a specific county other than the county of licensure.

(F) an EMS provider, licensed in a particular county and having a contract (with a county government or taxing authority) for a service area which is a geopolitical subdivision (examples listed below) and crosses multiple county lines, will be considered eligible for the 911 EMS Allotment for all counties served which compose the geopolitical subdivision. A contract with every county that composes the geopolitical subdivision is not necessary.

(G) eligibility of EMS providers licensed in a geopolitical subdivision other than those listed below in section (d)(2)(H)(i) – (vi) will be evaluated on a case-by-case basis.

(i) municipalities
(ii) school districts
(iii) emergency service districts (ESDs)
(iv) hospital districts
(v) utility districts
(vi) prison districts

(3) To be eligible for funding from the RAC allotment, a RAC must:

(A) Be officially recognized by the department as described in §157.123 of this title;

(B) Be incorporated as a 501 (c) (3) with the Internal Revenue Service;

(C) Submit documentation of ongoing system development activity and future planning;

(D) have demonstrated that a regional system (PI) process is ongoing by submitting to the department the following:

(i) lists of committee meeting dates and attendance rosters for the current calendar year; or
(ii) committee membership rosters which included each member’s organization or constituency; or

(iii) lists of issues being reviewed in the system performance improvement meetings.

(E) Submit all required EMS allocation eligibility items addressed in subsection (d) (2) (B) - (C) of this section.

(4) To be eligible to distribute the EMS, Uncompensated Care and TSA allotments, a RAC must be incorporated as an entity that is exempt from federal income tax under the Internal Revenue Code of 1986, §501(a), and its subsequent amendments, by being listed as an exempt organization under §501(c)(3) of the code.

(5) To be eligible for funding from the Uncompensated Care allotment, a facility must be a TDH-designated trauma facility or a Department of Defense hospital that is TDH-trauma designated.

(A) To receive funding from the Uncompensated Care allotment, an application must be submitted within the time frame specified by the department and include the following:

(i) name of facility;

(ii) location of facility including mailing address, city and county;

(iii) Texas Provider Identifier (TPI number) or accepted federal identification number; and

(iv) total uncompensated trauma care as defined above. The reporting period of a facility’s uncompensated trauma care shall apply to charges incurred during the preceding calendar year as this is the most recent, complete data available.

(B) The application must be signed by the chief financial officer, chief executive officer and the chairman of the facility’s board of directors;

(C) The form must be notarized, and;

(D) Additional information may be requested at the department’s discretion.

(e) Calculation of county shares of the EMS allotment, the RAC shares of the TSA allotment, and the TSA’s share of the uncompensated care allotment.
(1) EMS allotment.

   (A) Counties will be classified as urban or rural based on the latest official federal census population figures.

   (B) The EMS allotment will be derived by adjusting the weight of the statutory criteria in such a fashion that, in so far as possible, 40% of the funds are allocated to urban counties and 60% are allocated to rural counties.

   (C) An individual county's share of the EMS allotment shall be based on its geographic size, population, and number of emergency health care runs multiplied by adjustment factors so the distribution approximates the required percentages to urban and rural counties.

   (D) The formula shall be: \{((the county's population times an adjustment factor) plus (the county's geographic size times an adjustment factor) plus (the county's total emergency health care runs times an adjustment factor)) divided by 3\} times (the total EMS allocation). The adjustment factors will be manipulated so that the distribution approximates the required percentages to urban and rural counties. Total emergency health care runs shall be the number of emergency runs electronically transmitted to the department in a given calendar year by EMS providers.

(2) TSA allotment.

   (A) A RAC's share of the TSA allotment shall be based on its relative geographic size, population, and trauma care provided as compared to all other TSAs.

   (B) the formula shall be: \{((the TSA's percentage of the state's total population) plus (the TSA's percentage of the state's total geographic size) plus (the TSA's percentage of the state's total trauma care)) divided by 3\} times (the total TSA allotment). Total trauma care shall be the number of trauma patient records electronically transmitted to the department in a given calendar year by EMS providers and hospitals.

(3) Uncompensated care allotment.

   (A) the uncompensated care allotment shall be based on a TSA’s relative geographic size, population, and a TSA's percentage of the state's total reported uncompensated trauma care.

   (B) The formula shall be: \{((the TSA's percentage of the state's total population) plus (the TSA's percentage of the state's total geographic size) plus (the TSA's percentage of the total reported cost of uncompensated trauma care by qualified hospitals that year)) divided by 3\} times (the total uncompensated care allotment).
(f) Loss of funding eligibility. If the department finds that an EMS provider, RAC, or trauma facility has violated the Health and Safety Code, §773.122 or fails to comply with this section, the department may withhold account monies for a period of one to three years depending upon the seriousness of the infraction.
