

ImmTrac is the Texas immunization registry, a free service of the Texas Department of State Health Services. It is a secure, confidential registry that stores your child's immunization information electronically, in one centralized system. Only authorized professionals such as doctors, nurses and public health providers, as well as schools and licensed child care facilities, can access your child's vaccination history. ImmTrac allows you to request your child's shot record anytime, at no cost.

love them.

ImmTrac is a great high-tech tool. It helps parents and doctors ensure that children are vaccinated on time. It can also help avoid unnecessary vaccinations. If your child changes doctors or schools, their immunization history remains conveniently available in ImmTrac. **Register your child and let ImmTrac help you protect your child's health!**

Love and Protect them. Vaccinate and Register them.

To register your child, indicate your consent during the birth registration process or complete an ImmTrac consent form at your child's next vaccination appointment. You may also call the Immunization Branch at (800) 252-9152 and request ImmTrac registration information.

Vaccines protect your child from dangerous and deadly diseases. Your child should be vaccinated at **2, 4, 6, 12, and 15 to 18 months**, and again at four years of age. ImmTrac can help you and your doctor follow the optimal immunization schedule.

protect them.
