

STUART K. SHAPIRA, MD, PHD

Stuart K. Shapira, M.D., Ph.D., is a Medical Officer on the Pediatric Genetics Team in the Division of Birth Defects and Developmental Disabilities at the CDC in Atlanta, Georgia. Dr. Shapira received his both PhD degree in Genetics and his MD degree from the University of Chicago. He completed a residency in Pediatrics and a clinical fellowship in Genetics and Metabolism at Boston Children's Hospital. He also completed dual research fellowships in Genetics and Metabolism, and in Allergy and Immunology at Harvard Medical School. Dr. Shapira is board-certified in Pediatrics, as well as in Clinical Genetics, Biochemical Genetics, and Molecular Genetics.

Dr. Shapira practiced clinical genetics and metabolic genetics at Baylor College of Medicine in Houston and The University of Texas Health Science Center in San Antonio, before joining the National Center on Birth Defects and Developmental Disabilities at the CDC in 2005. His current interests include birth defects epidemiologic research, dysmorphology of autism, gene and nutritional interactions for adverse reproductive outcomes, and newborn screening.
