

Texas Hypertension Control Learning Collaborative Request for Applications

The Texas Department of State Health Services (DSHS) and the American Heart Association are inviting primary care clinics in Texas to participate in the Texas Hypertension Control Learning Collaborative (THCLC).

The THCLC project is aimed to help clinics improve hypertension control rates through the adoption and implementation of self-measured blood pressure (SMBP) monitoring policies and protocols.

Project Activities

- On-demand webinars on evidence-based strategies for developing and implementing SMBP policies and protocols in primary care settings.
- Support will be provided to develop or enhance SMBP policies and procedures through technical assistance and Target: BP™ resources.

Award Information

- **Number of awards:** Up to 30
- **Award amount:** \$3,500*
- **Application deadline:** Ongoing through December 10, 2021
- **Award announcement:** up to four weeks after receiving applications
- **Period of performance:** Four months

For more information and application guidelines, visit: dshs.texas.gov/heart

* Based on the completion of two deliverables: Progress Report and updated SMBP Policy.

The event is a cooperative effort of:
