Influenza Surveillance Report for MMWR Week 2

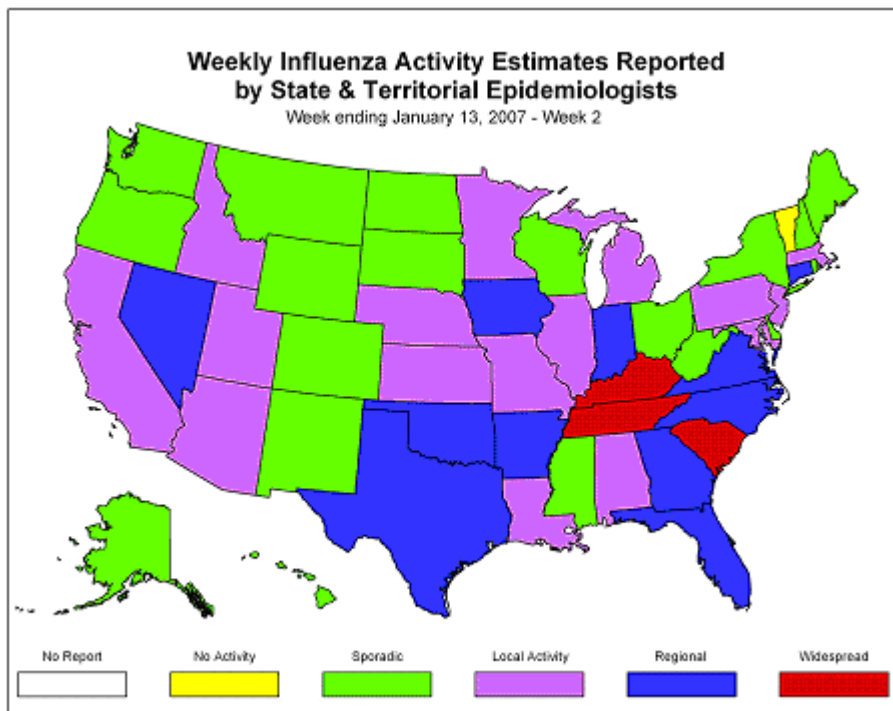

The flu activity level for the week ending January 13, 2007 is "regional". Regional activity indicates that 2 or more but less than half of the regions are experiencing an increase in ILI and lab-confirmed (by culture) flu has been identified in those regions.

The DSHS laboratory isolated influenza A/H1 in specimens from and Bexar, Tarrant, and Smith Counties collected during week 2. Influenza B (Malaysia/2506/2004-like) was isolated in a specimen from Tarrant County. Scott and White Laboratory reported culture confirmed flu A from Brazos, Grimes, and McLennan Counties and culture confirmed flu B from Milam County. The Air Force Institute for Operational Health (AFIOH) reported no culture confirmed flu during week 2.
