**Timely Perinatal Hepatitis B Case Reporting**

The Perinatal Hepatitis B Prevention Program (PHBPP) reports to the CDC on all infants born to Hepatitis B-infected mothers in the previous two calendar years. The PHBPP urges REs to make every possible effort to close out any still-open 2018 and 2019 birth cohorts before the end of January.

The statewide 2021 Annual Report, prepared by the PHBPP to assess and report on the outcomes of these at-risk infants, is due by March. Timely updates from REs are critical for the delivery of complete and accurate data to the CDC. Regional coordinators and the PHBPP central office should be notified as soon as possible of any difficulties in the on-time case management and reporting of all cases.
