

Holiday No Delivery Date

To prepare for the upcoming holidays, the Texas Department of State Health (DSHS) central office vaccine distributor will not be delivering vaccines between Monday, December 18, 2023, and January 1, 2024.

Note that this will not impact the usual ordering operations.

For any questions, reach out to TXVaccineOrders@DSHS.Texas.gov.

Texas Health Care Provider Survey

Please fill out this [survey](#) and provide feedback on the DSHS Immunizations Provider Support Help Desk. The survey closes Monday, December 18, 2023, at 7:00 p.m. Survey feedback will allow DSHS to identify areas for improvement to ensure all participating program providers have access to the information and

support they need. The survey consists of eight questions and should take no more than five minutes to complete.

DSHS recommends providers have their Point of Contact, Primary/Backup Vaccine Coordinator or Signing Clinician complete the survey, as these roles typically have the highest level of support need.

For more information, please contact Program Coordination and Integration Support (PCIS) at 833-832-7068, option 1.

DSHS Webinar Information

Nirsevimab Clinical and Ordering Update

The Texas Department of State Health Services (DSHS) will host two webinars to provide clinical and ordering updates for nirsevimab. Both webinars contain the same information.
