

Subject: TVFC ASN Vaccine Availability Updates 2024

Texas Vaccines for Children (TVFC) and Adult Safety Net (ASN) program providers,

The Centers for Disease Control and Prevention (CDC) shared updates on vaccine availability impacting the TVFC and ASN programs. The information below includes the following updates:

- TVFC and ASN Vaccines Removed
- COVID-19 Ordering Availability
- Vaccine Choice

TVFC and ASN Vaccines Removed

On April 1, 2024, four vaccines were removed from the TVFC program, and one vaccine from the ASN program. These vaccines remain available for ordering in TVFC and ASN until existing inventory is depleted at the central distributor. Ordering will be disabled in the Vaccine Allocation and Ordering System (VAOS) once inventory is depleted.

Program	Vaccine Brand	Vaccine Family	Manufacturer	NDC
TVFC	Boostrix® single-dose vial	Tetanus, Diphtheria and Pertussis (Tdap)	GlaxoSmithKline (GSK)	58160-0842-11
TVFC	Recombivax HB® single-dose vial	Hepatitis B	Merck	58160-0890-52
TVFC	Vaxelis™ single-dose vial	DTAP-IPV-HIB-HepB	Merck	00006-4981-00
TVFC and ASN	TDVAX™ single-dose vial	Tetanus and Diphtheria (Td)	Grifols	13533-0131-01

COVID-19 Ordering Availability

The COVID-19 vaccine availability is changing in preparation for the 2024-2025 respiratory season, starting in the fall of 2024. Product availability is based on the expiration date of the central distributor's current supply. Aside from the products with no anticipated supply constraints, ordering will be disabled in VAOS as the following vaccines become unavailable.

Program	Vaccine Brand	Manufacturer	NDC	Availability
----------------	----------------------	---------------------	------------	---------------------

TVFC	Pfizer 6 months-4 years	Pfizer	59267-4315-02	Unavailable as of April 26, 2024
TVFC and ASN	COVID-19 12 years+	Novavax	80631-0105-02	Unavailable as of April 30, 2024
TVFC	Pfizer 5-11 years	Pfizer	59267-4331-02	Available until June 2024
TVFC and ASN	Comirnaty® 12 years+	Pfizer	00069-2377-10	Available until June 2024
TVFC	Moderna 6 months-11 years	Moderna	80777-0287-92	No supply constraints
TVFC and ASN	Spikevax™ 12 years+	Moderna	80777-0102-95	No supply constraints

Providers should consider the limited supply and nearing expiration dates before ordering the COVID-19 vaccine to prepare for these updates. Additional information on strain composition and availability of COVID-19 vaccines for the upcoming respiratory season will be available in the coming months.

Vaccine Choice for Providers

In accordance with Tex. Health & Safety Code §161.01035, TVFC and ASN providers are allowed to choose preferred vaccine brands and presentations from formularies. Providers may update their vaccine choice to select alternative products to order. Follow these instructions for [VAOS choice updates](#).

For any questions regarding ordering, contact TXVaccineOrders@dshs.texas.gov.

Thank you for your continued partnership in the TVFC and ASN programs.
