

Updated 2024-2025 COVID-19 Vaccines Available
Texas Vaccines for Children (TVFC) providers,

On August 22, 2024, the FDA approved and granted emergency use authorization (EUA) for updated mRNA COVID-19 vaccines (2024-2025 formula). Providers should remove any remaining 2023-2024 COVID-19 vaccines from inventory following the instructions below. The Immunization Information System (IIS), or ImmTrac2, will update reporting codes once they are made available from the CDC.

As of Friday, August 23, 2024, the updated 2024-2025 Moderna and Pfizer COVID-19 presentations are available for ordering in the Vaccine Allocation and Ordering System (VAOS).

Recommendations for COVID-19 Vaccines

The CDC recommends everyone ages 6 months and older receive an updated 2024-2025 COVID-19 vaccine to protect against the potentially serious outcomes of COVID-19 this fall and winter whether or not they have ever previously been vaccinated with a COVID-19 vaccine. This recommendation will take effect as soon as the new vaccines are available.

Ordering

The following vaccines are available for ordering in VAOS. Providers with pending COVID-19 orders will have their orders denied and are encouraged to order the updated 2024-2025 vaccines once available.

The updated Novavax presentation will be available for ordering once authorized and approved by the FDA.

TVFC COVID-19 Vaccines			
Manufacturer	NDC	Brand	Description
Moderna	80777-0291-80	Moderna for 6m to 11y	10 Pack – single dose syringe
Moderna	80777-0110-93	SPIKEVAX for 12y+	10 Pack – single dose syringe
Pfizer	59267-4426-02	Pfizer for 6m to 4y	10 Pack – three dose vial
Pfizer	59267-4438-02	Pfizer for 5y to 11y	10 Pack – single dose syringe
Pfizer	00069-2432-10	COMIRNATY for 12y+	10 Pack – single

			dose syringe

Provider Vaccine Choice

The updated 2024-2025 COVID-19 vaccines have been added to the [vaccine choice page in VAOS](#). Providers should adjust their vaccine choice as needed. To update vaccine choices, follow these steps:

- Access the VAOS Provider Portal and select Vaccine Choice from the top menu bar.
- Select the ordering facility from the drop-down menu and make your choice of selections. Once completed, click submit.
- Return to the homepage and select Reporting and Ordering to place a vaccine order.

Removing 2023-2024 COVID-19 Vaccines from Inventory

With the authorization of the updated 2024-2025 COVID-19 formulations, all 2023-2024 COVID-19 vaccines must be removed from inventory.

The vaccines below should be removed from inventory, if present.

Program	Manufacturer	NDC	Brand
TVFC	Moderna	80777-0287-92	Moderna for 6m to 11y, SDV 10-Pack, 2023-2024
TVFC/ASN	Moderna	80777-0102-95	SPIKEVAX for 12y+, SDV 10-pack, 2023-2024
TVFC	Pfizer	59267-4315-02	Pfizer for 6m to 4y, MDV 30-pack, 2023-2024
TVFC	Pfizer	59267-4331-02	Pfizer for 5y to 11y, SDV 10-pack, 2023-2024
TVFC/ASN	Pfizer	00069-2362-10	Pfizer for 12y+, SDV 10-pack, 2023-2024
TVFC/ASN	Pfizer	00069-2377-10	Pfizer for 12y+, PFS 10-pack, 2023-2024

According to TVFC/ASN program policy, any unopened, untampered vials of COVID-19 vaccines must be shipped back to the central distributor,

McKesson. McKesson accepts the return of all publicly purchased non-viable (spoiled or expired) vaccines from providers, including influenza vaccines and direct-ship vaccines, and arranges for the return of non-viable vaccines to McKesson at no cost to the provider.

Providers may report vaccine loss for 2023-2024 COVID-19 vaccines in the VAOS by completing the following steps:

1. Upon accessing the VAOS Provider Portal, select Waste from the Specialized Reporting section.
2. Select the ordering facility from the drop-down menu and select continue.
3. Select the 2023-2024 COVID-19 inventory, and enter the vaccine loss details, include quantity wasted, reason for waste, description, and methods for preventing future losses.
4. Click Save.
5. Select the Download Vaccine Loss Report (VLR) button to save a copy of the VLR.

If applicable, a return label will be sent to your facility's Primary Vaccine Coordinator email within seven days of submitting the vaccine loss in VAOS. All returns should be sent to McKesson within six months after their spoilage or expiration date. However, vaccines that have expired more than six months previously will still be accepted.

Detailed instructions for reporting waste in VAOS can be found on the [VAOS Reporting Waste Job Aide](#).
