

JYNNEOS Vaccine Available August 1
Texas Vaccines for Children (TVFC) program providers,

Ordering of Bavarian Nordic’s mpox vaccine (JYNNEOS®) in the Vaccine Allocation and Ordering System (VAOS) begins Thursday, August 1, 2024.

Ordering

Providers should only order vaccines they anticipate they can administer to VFC-eligible patients 18 years old at high risk for mpox. Beginning August 1, 2024, providers who see eligible populations will need to update their vaccine choice in VAOS to include the vaccine below.

Manufacturer	NDC	Brand, if available	Description
Bavarian Nordic	50632-0001-03	JYNNEOS®	Ten pack – single-dose vial

Recommendations for Use of the JYNNEOS® Vaccine

ACIP recommends vaccination with the two-dose JYNNEOS® vaccine series for persons aged 18 years and older at risk for mpox. Providers should administer JYNNEOS® as a two-dose series given 28 days apart, or as soon as possible if more time has elapsed.

Mpox Vaccine TVFC Program Eligibility

People 18 years of age who meet one of the following eligibility criteria may receive TVFC vaccines:

- Enrolled in Medicaid or Medicaid-eligible
- Uninsured
- Underinsured
- American Indian or Alaskan Native
- Enrolled in the Children’s Health Insurance Program (CHIP)

Underinsured 18-year-olds are only eligible for TVFC vaccines to the extent their insurance does not provide coverage and defines them as a person with health insurance, but the coverage:

- Does not include vaccines;
- Covers only selected vaccines; or
- Sets a fixed dollar limit or cap on vaccine coverage. Copays do not count as underinsured.

Provider Vaccine Choice

The Texas Department of State Health Services (DSHS) Immunization Program updated the providers’ [vaccine choice page in](#)

[VAOS](#) to include JYNNEOS®. Providers can adjust their vaccine choice as needed. To update vaccine choices, follow these steps:

- Access the VAOS Provider Portal and select Vaccine Choice from the top menu bar.
- Select the ordering facility from the drop-down menu and make your choice of selections. Once completed, click submit.
- Return to the homepage and select Reporting and Ordering to place a vaccine order.

ImmTrac2 Reporting

Find the mpox vaccine (JYNNEOS®) codes for ImmTrac2 reporting below:

Name	NDC11	NDC10	CPT Code	CVX Code	CVX Description	MVX
JYNNEOS®	50632-0001-01 50632-0001-02 50632-0001-03	50632-0001-01 50632-0001-02 50632-0001-03	90611	206	Vaccinia, smallpox Mpox vaccine live, PF, SQ or ID injection	BN

Refer to the following resources for more information on the mpox vaccine (JYNNEOS®):
