General Comments on 4th Quarter 2023 Data

The following general comments about the data for this quarter are made by THCIC and apply to all data released for this quarter. · Data are administrative data, collected for billing purposes, not clinical data. · Data are submitted in a standard government format, the 837 format used for submitting billing data to payers. State specifications require the submission of additional data elements. These data elements include race and ethnicity. Because these data elements are not sent to payers and may not be part of the hospital's standard data collection process, there may be an increase in the error rate for these elements. Data users should not conclude that billing data sent to payers is inaccurate. · Hospitals are required to submit the patient's race and ethnicity following categories used by the U. S. Bureau of the Census. This information may be collected subjectively and may not be accurate. · Hospitals are required to submit data within 60 days after the close of a calendar quarter (hospital data submission vendor deadlines may be sooner). Depending on hospitals' collection and billing cycles, not all discharges may have been billed or reported. Therefore, data for each quarter may not be complete. This can affect the accuracy of source of payment data, particularly selfpay and charity categories, where patients may later qualify for Medicaid or other payment sources. · Conclusions drawn from the data are subject to errors caused by the inability of the hospital to communicate complete data due to reporting form constraints, subjectivity in the assignment of codes, system mapping, and normal clerical error. The data are submitted by hospitals as their best effort to meet statutory requirements.

4q2023 Inpatient Certification Comments

==

PROVIDER: BSA Hospital

THCIC ID: 001000

Data is submitted to meet statutory requirements. Conclusions could be erroneous

due to communication difficulties in reporting complete data by reporting

constraints, subjectivity in assignment of codes, system mapping and normal

clerical error. Deadlines may prevent inclusion of all applicable cases. This

represents claims data at the time of preset deadlines. Data may be incomplete

due to field limitations and be cautiously used to evaluate health care quality

and compare outcomes.

Errors in our data after 7-15-2024 cannot be communicated due to THCIC rules.

Due to hospital volumes, it is not feasible to perform encounter level audits.

In March 2023 AdventHealth converted our electronic medical record system from

Cerner to Epic. Due to the transition, IT made significant changes to our THCIC

program to capture our system data extracts. The quarterly data to the best of

our knowledge is accurate given the above.

==

PROVIDER: Cook Childrens Medical Center

THCIC ID: 332000

Cook Children's has certified Q4 2023 encounters to THCIC with these possible data concerns: Charges accrued before admit or after discharge could potentially be missing from the database; THCIC allows for one operating physician assignment per encounter, not per procedure, so a surgeon could potentially be assigned to a procedure they did not perform; THCIC allows for a limited number of diagnoses and procedures. Patients with more than the limit will be missing information from the database.

==

PROVIDER: Medical Arts Hospital

THCIC ID: 341000

PROVIDER: CHRISTUS St Michael Health System

THCIC ID: 788001

On one claim, there was an error because a new charge was added in error, so

there was no revenue code to enter or any of the other information. The claim

accepted as is due to inability to delete the new charge field.

Second error is listed as a newborn birthdate is different than admission date.

The newborn was born at another facility, but transferred and admitted at later

date to our facility. This is validated in patient's medical record.

Certain records are submitted as is, and that as of the time of the

certification, these records we've submitted, match what we found in our

internal EHR and that there is a possibility that some of these datapoints will

change due to internal processes and EHR data updates/refresh. Reasons for

change include changes to the: Super Record – (demographic), Clinical Record –

(coding / charging), Billing Record – (Business Office).

==
PROVIDER: Cook Childrens Medical Center Prosper

THCIC ID: 976100

Cook Children's has certified Q4 2023 encounters to THCIC with these possible data concerns: Charges accrued before admit or after discharge could potentially be missing from the database; THCIC allows for one operating physician assignment per encounter, not per procedure, so a surgeon could potentially be assigned to a procedure they did not perform; THCIC allows for a limited number of diagnoses and procedures. Patients with more than the limit will be missing information from the database.
