
Changes and Clarifications to 2011 Texas Cancer Registry Cancer Reporting Handbook

Introduction

9/2011 page 13

Added table with data items to be transmitted to TCR at submission, including clinical T, N and M for rectum and female breast.

Casefinding

9/2011 page 30

Corrected Pituitary adenomas diagnosed as of **2003 to 2004**

9/2011 page 35

Removed 289.6 from 100% Review List

Coding Instructions

9/2011 page 61

Instruction 6: changed routing practice to routine practice

9/2011 page 64

First Name: added spaces, hyphens and apostrophes are allowed

9/2011 page 65

Middle Name: added blanks, spaces, hyphens, and apostrophes are allowed

9/2011 page 89

Comorbidities: Removed instruction to use ICD-10-CM codes. Only ICD-9-CM codes are allowed for Comorbidities.

9/2001 page 91

Comorbidities Example 25001: Corrected 250.1 to 250.01

9/2011 page 92

Height Table: Removed (in the range of 48-98 inches) from Code XX, and added (up to 98 inches)

9/2011 page 93

Weight Table: Removed (in the range of 090 - 400) from Code XXX; Removed "less than 90 pounds or more than 400 pounds" from Code 999.

9/2011 page 93

Tobacco Use Table: Added (as of date of diagnosis) to description for code 1.

9/2011 page 94

Tobacco Use Other Smoke Table: Added (as of date of diagnosis) to description for code 1.

9/2011 page 94

Tobacco Use Smokeless Table: Added (as of date of diagnosis) to description for code 1.

9/2011 page 95

Tobacco Use NOS Table: Added (as of date of diagnosis) to description for code 1.

Cancer Information

9/2011 page 122

Description: changed “b” to “by”

Treatment A

9/2011 page 133

Date of Initial RX Flag: Corrected NAACCR Item to #1261

Treatment B

9/2011 page 175

Added Note: **If your facility chooses to request that TCR code the CER Non-NAACCR Standard Data Items**, the instructions will be made available.

9/2011 page 175

Added Note: If Chemotherapy (NAACCR item 1390), Hormone (NAACCR item 1400) or Immunotherapy (NAACCR item 1410) are coded as 00, not done, then the corresponding CER items will auto fill when the case is saved.

9/2011 page 176

NSC Number, 5th line: Added “If *SEER*RX* lists more than one NSC number for an agent, use the first NSC number listed.

9/2011 page 176

NSC Number: Added “TCR will provide a spreadsheet on the webinar with the newly assigned NSC codes as they become available.

9/2011 page 176

NSC Number: Added “In the rare event that more than 6 chemotherapy drugs are administered as first course treatment, fill in the agents using the date administered when entering the first six agents. For all additional chemotherapy agents beyond the first six please record the related information for those agents in the text fields.”

9/2011 page 176

Chemo 1 NSC Number: added “or planned” to Description

9/2011 page 176

Chemo 1 NSC Number: added “OR if the record states only that agent was recommended and the patient refused without specifying which agent was recommended” to code 999998 in the table.

9/20/11 page 176

Added Note to Chemo 1 NSC Number Table: ***Note:** Do not delay submitting an abstract because the NSC number is not available. Submit with code 999998 and document the name of the drug in the text field. TCR will revise when the permanent number is available.

9/2011 page 177

Chemo 2-6 NSC Number: added “or planned” to Description

9/2011 page 177

Chemo 2-6 NSC Number: added “OR if the record states only that agent was recommended and the patient refused without specifying which agent was recommended” to code 999998 in the table.

9/2011 page 178

Chemo 2-6 NSC Number Table: Added Note: Do not delay submitting an abstract because the NSC number is not available. Submit with code 999998 and document the name of the drug in the text field. TCR will revise when the permanent number is available.

9/2011 page 178

Chemo 1 Num Doses Planned: Added note that if chemotherapy agent was given as a prescription to be taken at home and/or self-administered code total number of doses planned as 98.

9/2011 page 179

Chemo 2-6 Num Doses Planned: Added note that if chemotherapy agent was given as a prescription to be taken at home and/or self-administered code total number of doses planned as 98.

9/2011 page 179

Added to note: SEE page 212 for instructions for calculating the planned dose.

9/2011 page 180

Chemotherapy 1 Planned Dose and Planned Dose Units: Added note that if chemotherapy agent was given as a prescription to be taken at home and/or self-administered, code the planned dose 999998 and unit 98.

9/2011 page 181

Chemotherapy 2-6 Planned Dose and Planned Dose Units: Added note that if chemotherapy agent was given as a prescription to be taken at home and/or self-administered, code the planned dose 999998 and unit 98.

9/2011 page 181

Chemo 1 Number Doses Received: Added note that if the chemotherapy agent is given as a prescription to be taken at home code as 99.

9/2011 page 183

Added to note: SEE page 212 for instructions for calculating the received dose.

9/2011 page 183

Chemo 2-6 Number Doses Received: Added note that if the chemotherapy agent is given as a prescription to be taken at home code as 99

9/2011 page 183

Chemo 1 Received Dose and Received Dose Units: Added note that if the agent is given via prescription to be taken at home and/or self-administered, code received dose 999999 and unit 99.

9/2011 page 184

Chemo 2-6 Received Dose and Received Dose Units: Added note that if the agent is given via prescription to be taken at home and/or self-administered, code received dose 999999 and unit 99.

9/2011 page 186

Chemo 1 Start Date: Added note that if the agent is given via a prescription to be taken at home and/or self-administered, the start date should be left blank and the corresponding date flag should be coded 12.

9/2011 page 186

Chemo 2-6 Start Date: Added note that if the agent is given via a prescription to be taken at home and/or self-administered, the start date should be left blank and the corresponding date flag should be coded 12

9/2011 page 187

Chemo 1 End Date: Added note that if the agent is given via prescription to be taken at home and/or self-administered, the date should be left blank and the corresponding date flag should be coded 12.

9/2011 page 189

Chemo 2-6 End Date: Added note that if the agent is given via prescription to be taken at home and/or self-administered, the date should be left blank and the corresponding date flag should be coded 12.

9/2011 page 190

Chemotherapy Completion Status Table, Code 6: Added "This includes if the chemotherapy was not completed due to a shortage of the agent. Document this in the text field."

9/2011 page 190

Chemotherapy Completion Status: Added note that if the agent is given via prescription to be taken at home and/or self-administered, the completion status should be coded 8.

9/2011 page 192

Hormone 1 NSC Number: Added "or planned" to Description

9/2011 page 192

Hormone 1 NSC number: Added "OR if the record states only that agent was recommended and the patient refused without specifying which agent was recommend" to code 999998 in the table

9/2011 page 192

Hormone 1 NSC Number Table: Added Note: Do not delay submitting an abstract because the NSC number is not available. Submit with code 999998 and document the name of the drug in the text field. TCR will revise when the permanent number is available.

9/20/11 page 193

Hormone 2 NSC Number: Added “or planned” to Description

9/2011 page 193

Hormone 2 NSC Number: Added “OR if the record states only that agent was recommended and the patient refused without specifying which agent was recommend” to code 999998 in the table

9/2011 page 193

Hormone 2 NSC Number Table: Added Note: Do not delay submitting an abstracting because the NSC number is not available. Submit with code 999998 and document the name of the drug in the text field. TCR will revise when the permanent number is available.

9/2011 page 193

BRM 1 NSC Number: Added “or planned” to Description

9/20/11 page 194

BRM 1 NSC Number: Added “OR if the record states only that agent was recommended and the patient refused without specifying which agent was recommend” to code 999998 in the table

9/2011 page 194

BRM 2 NSC Number: Added “or planned” to Description

9/2011 page 194

BRM 1 NSC Number Table: Added Note: Do not delay submitting an abstract because the NSC number is not available. Submit with code 999998 and document the name of the drug in the text field. TCR will revise when the permanent number is available.

9/2011 page 195

BRM 2 NSC Number: Added “OR if the record states only that agent was recommended and the patient refused without specifying which agent was recommend” to code 999998 in the table

9/2011 page 195

BRM 2 NSC Number Table: Added Note: Do not delay submitting an abstract because the NSC number is not available. Submit with code 999998 and document the name of the drug in the text field. TCR will revise when the permanent number is available.

9/2011 page 197

Subsq Rx 2nd CrsRad: Added OR other radiation to code 30 in the table.

9/2011 page 201

Subsq RX 2nd Chemo 1 NSC Number Table: Added Note: Do not delay submitting an abstract because the NSC number is not available. Submit with code 999998 and document the name of the drug in the text field. TCR will revise when the permanent number is available.

9/2011 page 202

Subsq RX 2nd Chemo 2-6 NSC Number Table: Added Note: Do not delay submitting an abstract because the NSC number is not available. Submit with code 999998 and document the name of the drug in the text field. TCR will revise when the permanent number is available.

9/2011 page 203

Subsq RX 2nd Hormone 1 NSC Number Table: Added Note: Do not delay submitting an abstract because the NSC number is not available. Submit with code 999998 and document the name of the drug in the text field. TCR will revise when the permanent number is available.

9/2011 page 203

Subsq RX 2nd Hormone 2 NSC Number Table: Added Note: Do not delay submitting an abstract because the NSC number is not available. Submit with code 999998 and document the name of the drug in the text field. TCR will revise when the permanent number is available.

9/2011 page 204

Subsq RX 2nd BRM (Immunotherapy) 1 NSC Number Table: Added Note: Do not delay submitting an abstract because the NSC number is not available. Submit with code 999998 and document the name of the drug in the text field. TCR will revise when the permanent number is available.

9/2011 page 205

Subsq RX 2nd BRM (Immunotherapy) 2 NSC Number Table: Added Note: Do not delay submitting an abstract because the NSC number is not available. Submit with code 999998 and document the name of the drug in the text field. TCR will revise when the permanent number is available.

9/2011 page 212

Added instructions and example for calculating Planned Dose Unit and Received Dose

Quick Reference

9/2011 page 9

Data Field 1430: Corrected spelling of Radiation

9/2011 Document 7, page 1-14 Added Required Site Specific Factors Table
