

## 2012 Texas Selected Cancer Facts

## Harris County

Texas Selected Cancer Facts are provided by the Texas Cancer Registry (TCR), a collaboration of the Texas Department of State Health Services, National Program of Cancer Registries-Centers for Disease Control and Prevention, and Cancer Prevention and Research Institute of Texas. The TCR is a statewide population-based registry that serves as the primary source of Texas cancer data. These data are used to measure the Texas cancer burden, progress in cancer prevention and control, and support a wide variety of cancer research.

Harris County

In 2012, it is estimated that there will be 14,822 new cancer cases and 5,180 cancer deaths in Harris County.

### Average Annual Number of New Cancer Cases and Deaths, 5 Leading Sites, 2005–2009

### Cancer Rates by Race, Ethnicity and Sex, 2005–2009

~ Rates not shown if number of cases is fewer than 16.

### Leading Childhood and Adolescent Cancers (Ages 0-19 Years) in Harris County, 2000–2009

	N	% of Total
All Cancers Combined	2,181	100.0%
