

Memorandum

#12-102

TO: WIC Regional Directors
WIC Local Agency Directors

FROM: Linda Brumble, Unit Manager
Nutrition Education/Clinic Services Unit
Nutrition Services Section

DATE: September 24, 2012

SUBJECT: Change to *Basic Infant Formula Module Workbook*

The following question in the Basic Infant Formula Module Workbook has been changed.

The question currently reads:

3. Breastfeeding may be contraindicated in the following medical conditions (check all that apply).
 - A. Galactosemia
 - B. Mothers who have been infected with the human immunodeficiency virus (HIV)
 - C. Mothers who are abusing drugs
 - D. Mothers who have sore nipples
 - E. None of the above

The new question will now read:

3. Breastfeeding may be contraindicated in the following medical conditions (check all that apply).
 - A. Galactosemia
 - B. Mothers who have been infected with the human immunodeficiency virus (HIV)
 - C. Mothers who are abusing drugs
 - D. All of the above

The answer is letter "D" *all of the above*. Please make the change in any workbooks that are currently printed by replacing page I-24 with the revised page attached to this memo. The downloadable version in the WIC catalog has been revised with the correction.

If you have any questions or require additional information, please contact Cathy Plyler, Clinical Nutrition Specialist, Nutrition Education/Clinic Services Unit, at (512) 341-4577 or cathy.plyler@dshs.state.tx.us, or Sandra Brown, Food/Formula Specialist, Nutrition Education/Clinic Services Unit, at (512) 341-4576 or sandra.brown@dshs.state.tx.us.
